Open Letter To Mr. President

Mr. President, it is not a wise idea to increase the cost of Jet fuel. The idea of increasing the cost of Jet fuel for “wealthy” individuals so that they “pay their fair share” does not take into consideration that Jet fuel is also used for law enforcement, medical, firefighting by aircraft, charities such as Angel Flight, and General Aviation Aircraft used for flight training. Not to mention, any increase in the price of Jet fuel would also increase the cost of operations for AirForce One.

Mr. President, most jet aircraft are built in the United States by hand by blue collar workers. This industry provides thousands of jobs and billions of dollars to our economy. Raising the cost of flying for anyone decreases the desirability of owning and operating aircraft, the same aircraft that produce jobs and increase our balance of trade.

Mr. President, it would be great if you instructed the FAA to hire competent air-men/airwomen to work for the FAA in Washington. Many employees of the FAA in Washington D.C. have never seen a GA Airplane and do not understand the importance of the industry

Mr. President, it would be nice to know that you hold Boeing in high esteem as it is America’s largest aircraft manufacturer that hires thousands of workers all over the country. I know that you know mistakes happen particularly in a larger organization. Let’s stop demonizing our largest employers.

Thank you Mr. President for implementing these suggestions.

Woody Lesikar
Airport Manager
